

## YOUR CURRENT SEWER CHARGE

**Senior Rate (65 y/o): \$63.50/QTR**

**Non-Senior Rate: \$82.00/QTR**

### SEWER CHARGE UNDER NEW INDIVIDUAL BILLING SYSTEM

(FIGURES BASED ON 2017 SEWER CHARGE FROM EAJSA TO WEST EASTON)

\*Originally provided at a 2017 Council Meeting by then-Council President Dan DePaul

**Note:** The Sewer Unit charges are based on the amount of potable water units used and reported on your Easton Suburban Water bill. Your water bill is not affected by separate billing of sewer charges. Sewer bills would remain “quarterly.”

#### How To Calculate “Units”

Locate your Easton Suburban Water bill. Find the column that reports “Cubic Feet Used.” Drop the last two zeros. The number that remains is “Units.” For example, if your Cubic Feet Used is “800,” your Units would be “8.”

8 would be used for the amount of units to determine your sewer charge.

#### Sewer Units x \$5.60 per unit

1-3 Units \$20.00 (Minimum)

4 Units \$22.40

5 Units \$28.00

6 Units \$33.60

7 Units \$39.20

8 Units \$44.80

9 Units \$50.40

10 Units \$56.00

**11 Units \$61.60 < Current Senior Rate \$63.50**

12 Units \$67.20

13 Units \$72.80

**14 Units \$78.40 < Current Non-Senior Rate \$82.00**

15 Units \$84.00

For every additional Unit, add \$5.60 per unit.

These amounts do not generate any additional revenue for the Borough above that normally collected under the existing billing system.
